

Mammoth Day

Lost Fossils Rediscovered

Saturday, December 2, 2017

11-4 pm

Fundraiser to create new exhibits for 400 new fossils
\$10.00 donation (free admission and first 200 get free backpack with apron and goggles– donated by Thermofisher)

4074 Eggers Drive
Fremont, CA 94536
<http://msnucleus.org>

Wes Gordon's house (the teacher who mentored the famous Boy Paleontologists) is being sold. In preparation we decided to clear out under his house where he stored his rocks. His grandson Chris Charles, decided to look under a steep narrow area. What he found was amazing! 400 fossils were rediscovered and are now being added to the collection at Children's Natural History Museum. Come see them and help us design a new exhibit.

The Math Science Nucleus opened the Children's Natural History Museum in 2006. Our collection has grown and many visitors love our family friendly exhibits. Come learn about the new changes coming as we look toward a larger museum.. We need the public's help. Want to learn more:

*11:30 –1:00 Talk about the past and future
Dr. Joyce Blueford, Geologist
& Board President*

**Special visit by Phil Gordon,
one of the original
boy paleontologists**
