Math/Science Nucleus (manages site)
(510) 790-6284 <http://msnucleus.org>

1. Define a watershed.

2. Circle and label Tyson Lagoon, Mowry Slough, Laguna Creek, and Alameda Creek Watersheds

3. List the elements found in stormwater that originates from different modes of transportation (use internet to find the element name).

4. What other pollutants can enter Tule Ponds from the local watershed?
